

Florida District Circle K International *Governor's Project*

“Service in Sync” is a 6-part all age face-to-face mentorship program targeted at uniting the community through service.

Every 2 months the focus of the project shifts in age range. However, simply because the age changes, doesn't mean that a club cannot complete a project with any of the other age ranges because the ages of the months are recommendations of focus. I hope you all can “Sync up with Service” within your local CKIs and Student Leadership Programs.
